

**Geologic Timeline Rubric**

Score your project using the student scoring section.

- Award yourself 1.25 points for each section of the writing component if you have fully discussed that point. Give yourself 1 point for a brief mention, and .5 points for no mention at all.
- For the drawing section, give yourself one point for each section completed to the highest quality, but only .5 points if you feel that it is not the best it could be. If you used pictures instead of your own hand drawings, you receive no point for the section titled “drawing.”
- Staple the rubric sheet to your timeline when you have completed your scoring.
